

## Red Rocks Country Club Music Policy

- **A player may play music at any time, providing the music cannot be heard outside of their cart and their cart mate does not object.**
- **A player wishing to play music that can be heard outside of the cart *must* gain agreement from his/her entire group in order to do so.**
- **The music volume should be such that it can only be heard by your group and not any other group.**
- **The music volume should be adjusted as you near adjacent groups such that the neighboring groups do not hear the music.**
- **This local rule applies to tournament and non-tournament golf, with the exception of the Club Championships, Senior Club Championships and where the play of music during these tournaments is strictly prohibited.**

### **MGA\* to vote on Saturday events and majors.**

\*The use of headphones or earplugs to eliminate noise or other distractions is prohibited under Rule 14-3.

Decision 14-3/16 covers listening to music or some other broadcast during a round. Here is the text of that Decision:

Rule 14-3a states that a player may not use any artificial device or unusual equipment that “might assist him making a stroke or in his play.” Listening to music or a broadcast while making a stroke or for a prolonged period might assist the player in his play, for example, by eliminating distractions or promoting a good tempo. Therefore, the use of an artificial device to listen to music or a broadcast, whether or not through headphones, while making a stroke or for a prolonged period of time during a stipulate round is a breach of Rule 14-3. However, it would not be a breach of Rule 14-3 for a player to listen to a device briefly, for example, to obtain the results of another sporting event or traffic information, while walking between the putting green of one hole and the teeing ground of another hole.
